Add Autumnal Décor in 5 Easy Steps

E.B.Designs

E.B.Designs

5 simple steps to add Autumnal décor to your home

1. Warm Hues and Textures

Start by swapping out bright summer colours for warm autumn hues like rich reds, burnt oranges, and deep browns. Introduce cosy textures like faux fur, knitted blankets, or velvety cushions to create a snug ambiance.

2. Foliage

Bring the outdoors in with autumnal foliage. Display decorative pumpkins, gourds, and colourful leaves in vases or as table centrepieces. Adding a seasonal wreath to your front door or mantelpiece can instantly set the autumn vibe.

3. Candlelit Glow

Incorporate soft, flickering candlelight throughout your home. Choose autumn-scented candles like cinnamon, apple, or pumpkin spice. Not only do they create a soothing atmosphere, but they also add a hint of seasonal aroma.

4. Layered Rugs and Throws

Layering rugs with warm tones or natural textures can instantly transform a space. Pair these with comfy throws over sofas or chairs to encourage snuggling up during the cooler evenings..

5. Seasonal Accents and Artwork

Swap out existing artwork or wall décor with autumn-themed pieces. Think paintings or prints featuring autumn landscapes or abstract designs with warm tones. Little touches like pumpkin-shaped ceramics or leaf-patterned textiles can also tie the theme together.

Just as leaves transform in autumn, let your home evolve with the season, embracing the warmth of autumnal hues and the cosy tapestry of nature within your interior canvas.

Share your work with me when you've made some seasonal changes!
